### Best Practice: 1. SCOPE FOR UNDER\_PRIVILEGED STUDENTS

#### Objectives

1. To identify economically weaker but academically competent students and facilitate them to fulfill their dreams of higher education.
2. To take parental care and facilitate them with food and accommodation so that their focus should be fixed on career prospects.
3. To provide full set of text books, additional learning resources.
4. To encourage such students in cocurricular and extra curricular activities.
5. To prepare them competent and become model citizen after their graduation.

#### Context

Majority of the students enrolled to our Institution are from different villages and economically weak sections. But history always reminds us that, good number of bureaucrats, professionals, academicians, entrepreneurs of our country became a role model. Many of such successful individuals witness that their strong commitment and strong will power in fulfilling their aspirations irrespective of their family background. But recent trend of students who are from economically weaker but academically proficient, good number of students do get all other government facilities including different schemes of scholarships. To render the social contribution, college has thought of identifying remote village students and motivate their parents who are ignorant of scope of higher education and encourage them to enroll their children for higher education. With the active support of our esteemed Management, active involvement of Alumni Association, we have decided to promote atleast 10 students and facilitate in providing basic facilities to those who are deprived of hostel facilities provided by the government institutions.

#### Practice

Most of the students enrolled to our college are from villagers and different places like; Bagalkot, Belagavi, Raichur, Koppal, etc. Many of them do get government provisions of hostel facilities, different scholarships schemes, etc. It is noted that, some of the students deprived of hostel facilities which has become extremely difficult for such students to

continue their education and many of them returned back to their native or else discontinue their education who could not afford to continue their education. This has become major concern to the Head of the institution to stretch the helping hand to such students so as to pave the way for completion of their graduation and also control the drop out ratio.

College has a separate room with attached facilities accommodate 10 students. Students are well communicated about the facilities available in the Institution. Students who are deprived of government hostel facilities, such students are instructed to give their names to Physical Education Director for seeking accommodation facilities. After a thorough inspection of every students' economic status and family background, Principal shortlists 10 students to get the accommodation. College provides morning breakfast, after noon lunch and night dinner to all these students. The students who are accommodated in the room is regularly monitored by Physical Education Director. College also provides them one full set of text books, additional learning resources and also some of the teachers and also alumnus of the college do provide financial assistance for the payment of admission fees, examination fees, etc.

### Evidence of success

During the last five years 50 students have benefitted the provisions. Most of them were unable to afford fees, hostel fees, etc., the provisions available in the college has helped deserving students to continue their education and complete successfully with good semester end result. Out of which, 27 students have continued for higher education after their graduation at different university for doing their PG programmes. Remaining 23 students have got employability at different sectors including State Government different Departments.

### Problems Encountered :

Since the college is private in nature and has acute financial constraint, to fulfill the Vision statement of the Institution and strong social concern and commitment of the Head of the Institution, college had to face difficulty in managing the required financial resources to facilitate required ration. But however, we have never compromised with our commitment to fulfill this Tasks.
